Manufacturers and Designers of the following equipment packages & systems:

MPE Engineered Systems

Variable Speed Pumping Systems

Heat Transfer Packages

Condensate Return & Boiler Feed Systems

Water Pressure Booster Systems

Heating Hot Water Boiler Systems

Domestic Hot Water Heating Systems

Sewage Lift Stations

MPE Engineered Systems' packages can incorporate various customized controls and instrumentation. Each system can be designed to fit a customer's space and piping connection requirements. Our in-house staff can prepare piping systems in welded or joined, carbon or stainless steel. MPE Engineered Systems' strives to produce a quality custom-designed pre-packaged system within a timely schedule.
